

DRS TenderView helps you quickly balance cash drawers during end-of-day closeouts without printing an X report.

# DRS TenderView™

for Microsoft® Retail Management System

DRS TenderView provides a quick view of cash drawer amounts in RMS POS, without printing an X report. View transactions and all relevant details by tender type. You can match these counts alone to quickly reconcile a cash drawer. Amounts of checks can be verified on screen. If you are using RMS integrated card processing, your credit and debit slips will match by default.

## Use DRS TenderView to:

- Get a quick snapshot of register activity
- See which registers and which cashiers are most active in ringing up sales
- Speed-up your end-of-day reconciliations, so you can go home earlier!

TenderView includes DRS End-of-Day and Sales Summary reports, plus suggested daily and monthly procedural guide.
