Service Manager (SM)	195	295	495	695	895	1095	Add 100

Pricing for DRS add-ins is based on WORKSTATION COUNT. This count is controlled by the number of workstations defined in Store Operations Manager, Database, Registers, Register List. This count is not limited to the POS lane licenses for RMS. A DRS license bracket represents the total number of PCs the app *might* be installed on. Simple question to ask is – How many PCs on the local store network will run RMS? (POS or Manager)

¹All prices are USD. Volume licensing is available when purchased for more than 10 store locations.

²Annual Maintenance Plan (AMP) is INCLUDED with initial purchase at no charge. AMP includes all updates issued during a 12 month period, plus 24/7 access to our add-ins knowledgebase (KB). AMP renewal is calculated at 50% of list price. AMP renewals should be purchased within 30 days of expiration date to ensure no interruption in service.

³Multi-store discount of 20% applies to all licenses when add-ins are initially purchased for multiple store locations. AMP renewals are based on standard list price.

⁴Matrix Master for HQ+1 includes keys for HQ and Store #1. Substitute store count for station count in price chart. Please note HQ licensing is included at no charge when Matrix Master is licensed for each store location instead.

30-day trials are available for most add-ins. Trial extensions are available upon request. At any time during a trial, DRS software can be authorized by purchasing a license key which includes AMP subscription for 1st year.

To request a quote during a trial, run the application, select About, Register, then click the envelope icon and follow the instructions. You'll receive a quote for approval. Once approved, a license key will be issued.

*Included in RMS Toolkit.

Prices as shown are effective 10-31-2012 and subject to change without notice.
